

*The mediocre teacher tells.
The good teacher explains.
The superior teacher demonstrates.
The great teacher inspires.*

- William Arthur Ward

Presently, in this 55-million country, there is neither an organized vocational training nor hardly any teacher at the CVT, who has gone through a teacher's training. The privilege to be well trained is recognized by the learners as well as by the teaching staff at the CVT. Thus, highly motivated people are working and learning on both sides as students and teachers.

Ni Ni Aye Nyo, Teacher Hotel & Gastro assistant

„Previously (most of teachers in Myanmar) are teaching in our own style for our subjects concerned. After attending teacher's training course, we realize many ways how to control the time management, how to substitute the boring lessons with role plays, how to help the students for long lasting memory, how to introduce new strange words for the students.”

U Saw Peter, Teacher Electricians

„It would be very good, if I had an opportunity to attend the teacher training course when I was younger. However I try my best to apply the methods that I learnt during the teacher training.”
